TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Interstate Brick Company, Koosharem Pit, M/031/002, Piute County, Utah

Date of Inspection: October 15, 1996
Time of Inspection: 6:15pm
Conditions: Sunny, cool
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: To evaluate conditions of the site while in the area

This mine was inactive (and apparently has been for several months at least) at the time of this inspection. The site appeared to be stable with no obvious evidence of off-site erosion. A small area (2-3 acres) in the southern pit appeared to have been regraded. Vegetation establishment was poor on this area. In total, it appeared that about 10+ acres have been disturbed.

Several photos were taken to document site conditions.
